Illinois State Immunization Registry and Public Health Disease Surveillance Registry

This practice participates with the **Illinois State Immunization Registry and Public Health Disease Surveillance Registry**.

Information will be sent electronically to the IL State registries about immunizations and state-required reportable diseases. This information is used by the State of IL to track Public Health needs.

If you do not want your immunization information to be reported to the IL State Immunization Registry you may request to “Opt out” of this by signing an Opt-out form. This form is available at the Front Desk. This will not affect your care by your doctor.
